# Mohab Mutaher Mohab Al-Huani

Laravel Backend Developer | Full-Stack Web Developer

Sana’a, Yemen · +967 777 428 224 · eng.mohab.huani@gmail.com
github.com/EngMohebHuani · LinkedIn

## Professional summary

Professional journey in software development since 2019. I develop web and e-commerce systems, APIs and admin tools using Laravel, with experience in databases, caching, payment and notification integrations, performance analysis and hosting. I translate business requirements into maintainable services, with testing, scoped evidence and rollback planning.

## Technical skills

PHP · Laravel · REST APIs · Filament · Livewire · Webhooks
MySQL / MariaDB · Redis · Query optimization · WebP
JavaScript · Tailwind CSS · Flutter API integration
Git · Linux · Apache · PHP-FPM · cPanel · Backup & rollback
